

DAILY NEVADA STATE JOURNAL.

VOL. 8.

RENO, WASHOE COUNTY, NEVADA, THURSDAY MORNING, JANUARY 3, 1878.

NO. 79.

STATE NEWS.

On the last day of the year the Associated Press reports from every place of importance in the State. As a matter of useful information we copy:

Cherry Creek.

CHERRY CREEK.—Weather clear and cold; very little snow. The Star Company's 20 stamp and the Geneva's 6 stamp mills will run on good ores all winter. The population has trebled in the last three months. Forty new buildings have been constructed. The camp's prosperity is owing, principally, to the operations of the Star Company's mill. A new paper, the *Independent*, will make its first issue to-morrow.

Douglas.

GENOA.—Weather quite pleasant. Times rather dull. Crops during the year were good. Population has been about at a standstill during the year.

Elko.

PALISADE.—The weather is unusually fine for this season of the year. Times are better than they have been for a year past, which is caused by improvements in the Eureka mines. The local improvements at Eureka and Palisade consist of a fine passenger depot, Wells, Fargo & Co.'s new express office and the Masonic Hall. The Masons instituted a new lodge here during the year.

TUSCARORA.—The weather is pleasant and mining prospects rapidly improving, in consequence of which the town is growing in a manner surprising to every one, and as high as fifty canvas houses have been erected in a day.

The *Times* and *Review* will consolidate under the name of *Times-Review*. The first number of the daily paper will be issued on the 5th of January.

Eureka.

EUREKA.—Snowing, mining outlook splendid. Bullion product for the year, five million. Increase in population, one thousand. No epidemic sickness. Few cases of diphtheria.

Humboldt.

WINNEMUCCA.—Humboldt county, like the neighboring counties, has experienced the terrible ordeal of depression and trying times, but a brighter sun now shines upon her, indicative of a financial prosperity heretofore unknown. In addition to her mines, extensive ranches and a great cattle interest is added an immense refrigerator and slaughter-houses for the purpose of supplying Eastern and Western markets.

Lincoln.

PROCTOR.—Comparatively speaking, times in the Ely district are decidedly good, with every prospect of an improvement. The recent developments in the Alps and Raymond & Ely mines have given a new impetus to mining operations in this district. It is understood that the Flag and Newark mines will shortly resume operations. The N. C. R. R. is making daily trips with ore trains to and from the mills at Bullionville and Condon Cañon. All the mills are being kept busy on ore from the Proche and Jack Rabbit District. The weather is cold and clear; three inches of snow on the ground.

Ormsby.

CARSON.—Weather cold, clear and freezing. Times are somewhat depressed, and there is great stringency in money matters. Population has decreased. No particular sickness, but diphtheria somewhat prevalent at present.

Storey County.

VIRGINIA.—Weather cold, clear and dry, threatening snow. This morning there was piled up in the Consolidated Virginia office 202 bars of bullion, fifty per cent gold, valued at \$1,100,000. Times are steadily improving. Population of the State is increasing and is now estimated at 83,000. Population of Virginia City is estimated at 25,000; Gold Hill 8,000. The general health of Virginia City is good. The prevailing diseases are diphtheria and pneumonia.

Washoe.

RENO.—Clear, cold and pleasant—little snow or rain so far. Pyramid mines looking better as depth is reached. The past year has been unusually prosperous for Reno and Washoe county. Population has increased 25 per cent, and property 25 per cent. Times dull now. Work by the Timber Company has been discontinued, throwing a large number out of employment.

White Pine.

HAMILTON.—The weather is fine, with very little snow. The King furnace shut down last night for want of water, but struck water last night and will start up in a few weeks. The Eberhart Company have been keeping their tunnel and mine running all summer. The tunnel is in about 2,400 feet, and they expect to strike the old South Aurora mine every day. Prospects for the coming year are very encouraging.

NEWS ITEMS.

The Philadelphia Mint, for the year 1877, coined 30,856,143 pieces of money, of the total value of \$18,639,414 50.

NEWS OF THE MORNING.

England is evidently preparing for war. All Europe is moved by the situation.

It is pretty well understood in administration circles that if Evarts or Schurz should resign Hayes would nominate Bristow in his place.

A rumor has been circulating in Washington for some days that when Congress reassembles the Republican Senators, or rather the anti-Hayes part of them, intend to ask the President formally to reconstruct his Cabinet. This is not likely to succeed.

Hickok & Spear, bankers of San Francisco, have suspended.

The Republicans of South Carolina have determined to revive their party organization and not let the State pass hopelessly into the hands of the Democrats.

Another big bank failure in Illinois.

The public debt statement for December shows a decrease in the debt for the month of \$71,623. This is the first decrease of the debt in December since 1873.

YESTERDAY'S STOCK MARKET.

An Encouraging Opening of the New Year's Business—The Whole Comstock List Strong and Buoyant—Effect of the Big Bullion Shipments.

A special dispatch to the Virginia Chronicle dated the 21, gives the following as the New Year's outlook of the stock market:

Considering that yesterday was New Year's, the brokers and operators did well in turning out in the force they did this morning. Everybody expected a lively market, and happily nobody was disappointed.

One chief feature of the early hours was a sharp scramble after Alta, and a corresponding movement to get rid of Justice. Under this pressure Alta advanced to 24 1/2 and Justice declined to 10, recovered to 10 1/2, toward the close of the early hour, because it was evident that a general movement upward was on the tapis, and that the bonanzas were to be used for the purpose.

Gen. Virginia suddenly sprang into demand, opening at 23 1/2 and advancing to 24 and 24 1/2. California was also strong at 38 1/2. At the regular session, however, the movement was more manifest. When the bonanzas were called there was considerable excitement and Gen. Virginia rose to 24 1/2, with California strong at 29. The big shipment did much to bring the two old favorites into demand, and, with a very little help from the insiders, both can be sent toward the fifties in no time.

Uphir was very quiet, but Mexican was quite strong, and so was Best & Reichert. In fact the Bonanza flurry gave the whole north end great strength.

Hale & Norcross and Cholier were most sought, after the Bonanzas, though Crown Point was very strong at 75, and Overman 25 1/2.

The whole market, at the close of the regular session, was strong and buoyant, with a prospect of still greater activity.

THE WADSWORTH BALL.—The Truckee Republican has the following local notice of the ball at Wadsworth:

The ball given on New Year's eve by the brotherhood of Firemen, was in every respect a success. Mr. Evans, one of the Order, kindly gave us a few points concerning it, we having, unfortunately, not been able to attend. Everything passed off most harmoniously; the music was excellent, the supper one never surpassed in the town, and there being no disorder among the attendants, made it a most happy affair. There were representatives from along the railroad at every point to Truckee, but here, owing to there being a ball, and also to the fact that there has been many of late, parties who generally attend were indisposed. Our thanks are due the organization for a complimentary, and we rejoice that their ball has proved a success.

Train Bitched.

A broken rail on the V. & T. R. R. between Hualakars and Steamboat ditched a freight train New Year's day, and blocked the road for several hours so that the lighting train was delayed. Damage trivial.

Center of Attraction.

The mill dam was the center of attraction New Years, large crowds being there all day, either as skaters or spectators. Winter sports are the excitement, wherever possible.

Ten Chinamen who killed a Chinese countryman and burned his wash-house a few days ago, are said to be in Virginia City.

From advance copies of the Army Register for 1878 it appears that the United States army now consists of 20,000 men, all told, including 2,286 commissioned officers making a proportion of one officer to every eight men. The combined pay of these officers is far in excess of that of all the enlisted men.

The New York Tribune thinks that the Republican party is not only stronger than at any time since the inauguration of President Hayes, but stronger than its most sanguine friends could have hoped six months ago.

Prof. Henry, of the Smithsonian Institute, reports that Prof. Forester, of Berlin, announced the discovery by Palasia, on the 29th of December, of a planet of the eleventh magnitude, seven hours eight minutes right ascension, and 33 degrees 37 minutes north declination—possibly Eva.

It is reported that the President has abandoned his proposed Southern trip.

The Western Union Telegraph Company have assumed control of the Pacific Division of the Atlantic and Pacific lines, similar arrangements having been made with other divisions of that Company. After the first of February there will be a material reduction in telegraphic rates. This is as early a day as the tariff books can be got in readiness. This reduction will be principally upon the higher rates, and will vary from ten to thirty-three per cent.

The Iowa Supreme Court has decided that the Legislative Act allowing cities and towns to vote a tax in aid of railroads or other public corporations is constitutional. It does not follow that the people are justified in voting any more subsidies.

Harry Mighels has become the sole proprietor of the Carson Daily Appeal, and reduced the price to twenty-five cents per week. The Appeal has shown much improvement lately; it is always sought after, however.

A new counterfeit \$5 note on the First National Bank of Hanover, Pennsylvania, has made its appearance. The paper is thin and color dark. Bank number 187, date February 20, 1864, and bearing signatures of F. F. Spinner and L. E. Cluteuden. It is printed from the same plate as the First National Bank of Tamaqua, Pennsylvania, which made its appearance about September 20, 1877.

The price of the Carson Tribune has been reduced to twenty-five cents per week, and promises to be a better paper than ever.

Parties in from the eastern part of the State say that the weather out that way is much colder than it is along the Comstock range. Out at Lone and other camps in that direction they have about two feet of snow; also about Belleville there is a great deal more snow than we have seen here at any time this Winter. The snows seem to pass over us this Winter. So the Enterprise states.

No. 22, held by Mrs. Isaac Barnett, won the watch put up by S. N. Davidson to all patrons who bought \$5 worth of jewelry or over.

TRUCKEE LODGE has postponed the installation of officers for this term until next Wednesday evening. All members are requested to be present.

1873 is not Leap Year, because 1876 was. Old maids will please wait two years more.

Special Notice.
Having determined on reducing my large stock of goods, previous to stock taking, I will on Monday and following days offer such bargains in dry goods as will convince the public that this is a *long file* sale. Every piece of goods in the store has been marked down to the lowest possible price in order to effect a speedy clearance. This no humbug or mock sale. When we tell you that you can buy goods cheaper than ever before offered in Reno we mean just what we say. Our domestics, flannels, blankets, bedspreads, table linen and towels are marked below cost. Cloaks, skirts, waterproof and dress goods, at cost. Give us a call and judge for yourself. N. B. The remainder of our Holiday goods at very low prices.

LETTER FROM VIRGINIA.
VIRGINIA, Dec. 29, 1877.
Editor Journal:—The Republican pot-boilers have been busy during the past two months fixing up a slate for the next campaign, which will soon open. One of the faithful informed your correspondent a few days ago that the Head Center of the Republicans in Storey had decided upon the following candidates, who will undoubtedly be nominated at the Republican State Convention next August: For Governor, W. W. Hobart of White Pine; Lieutenant Governor, J. J. Linn of Humboldt; Congressman, A. C. Cleveland of White Pine; Secretary of State, F. A. Rodgers of Elko; Controller, Theodore Hale of Lincoln; Treasurer, George Tully of Ormsby; Attorney-General, Wm. Woodburn of Storey; Surveyor-General, M. A. Curtis of Lander; Supt. Public Instruction, S. P. Kelly of Eureka; Supreme Judge, Thos. P. Hawley of White Pine; Clerk of the Supreme Court, C. S. Bicknell of Ormsby.

The Democrats are working and are confident of success. There seems to be serious objections among them to giving the nomination for any position on the State ticket to any one for a third time. Judge Kirkpatrick will probably be their candidate for Senatorial honors. The indications are that J. C. Hagerman, of your town, will have a solid delegation from this county to the Democratic State Convention, who will favor his nomination for Governor. The Republicans have not yet decided upon their candidate for U. S. Senator, but the probabilities are that either J. P. Jones or R. M. Daggett will be the lucky hombra. Comstock.

"SPIDER" sent seventeen deer to the Comstock to add toothsome ness to the New Year's dinners.

IMPORTANT LETTER

From a Distinguished Physician.

No single disease has entailed more suffering or distressed the breaking up of the constitution than Cancer. The sense of smell, of taste, of sight, of hearing, the power of voice, the mind, one or more and sometimes all yield to destructive influence. The poison it disseminates throughout the system attacks every vital force, and breaks up the most robust of constitutions. Ignored because but little understood by most physicians, impatiently resisted by quacks and charlatans, those suffering from Cancer little hope to be relieved of it this side of the grave. It is now, then, that the popular treatment of this terrible disease by remedies which in the hands of all passed to hands are more competent and trustworthy. The new and efficient method adopted by Dr. Sanford in the preparation of his Radical Cure has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it is directed at the root of the disease, viz., the unclean blood, while it treats the altered tissue by direct application to the blood passages. I have so far had no certain fixed price, and I have this word forward are free of charge, and in the great majority of cases, effect a cure.

GEORGE BEARD, M. D.,
Reno, Dec. 29, 1877.

SANFORD'S RADICAL CURE

ANY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but use it in their families in preference to any of the preparations usually prescribed by physicians.

"I am aware," said a distinguished city physician, "that my obligations to the Mass. Medical Society caused me to be somewhat prejudiced against the Radical Cure; but since I received so much relief from the use of it myself, I have a thorough trial of the usual remedies, I have privately advised its use, and presume I have now to give more than one hundred of my patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN.—We have sold Sanford's Radical Cure for nearly one year, and can say confidently that we never sold a similar preparation that gave such universal satisfaction. We have to thank the complacency.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted with it will be convinced of its great merits; that their suffering will be relieved. We have been in the drug business for the past twelve years, and have sold every kind of Catarrh, but yours made all the rest. If you are a sufferer you can use this letter or any part of it that you wish.

Very truly yours,
S. D. BALDWIN & CO.,
Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1878.

Each package contains Dr. Sanford's Improved Friction Tube, and full directions for use in all cases. Price, \$1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. **WEEDS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.**

An Electro-Galvanic Battery combined with a highly medicated strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has fled the body, restoration by means of electricity is possible. It is the last resort of all physicians and surgeons, and has rescued thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the games of the East are too well known to require description. Their restorative, healing, soothing, and strengthening properties are known to thousands. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. In this respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and untold cures more cures than any other ointment, lotion, wash, or plaster ever before compounded in the history of medicine. Try one. Price, 25 Cents.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by **WEEDS & POTTER, Proprietors, Boston, Mass.**

The Phantom Trout.

A Comstocker who was down at Glendale a day or two since is said to have made his mark there as a fisherman, says the Enterprise. Being told that the trout would not bite he armed himself with a spear, determined to have a fish or two in spite of any of their little whims and prejudices. A Glendale man who happened along shortly after he began operations found him in a great state of excitement. Said the Comstocker: "There's a d-d great big one here that I've struck at more than a dozen times, and I can't hit him. He always dodges me. Sometimes he comes nearly to the surface of the water, still I can't hit him. D-d great big fellow that looks red around the gills! Hold! There he is now! Come up quietly now and you'll see him. There! look—almost on the surface!" and he made a terrific lunge with his spear. "Gone again, blast him!" and looking around for the Glendale man who had been peering over his shoulder, he found him rolling on the ground convulsed with laughter, but he presently managed to say: "Why, bless my soul, if you hadn't been a speck in the reflection of that pose of yours!"

LEVI LELAND, Grand Lecturer of the I. O. G. T. of California and Nevada, lectured last night in the Baptist church, to a good audience. He is a fluent, funny and powerful talker and does the cause good.

Letter from Wadsworth.

Editor Journal:—Didn't it come in cold though? Mercury 'way down below zero. Why were not you at the ball given here Monday night? Were you among the unfortunates who got left at Reno? Much regret was expressed at the occurrence, but the ball went on—I mean that given by the boys belonging to Pinto Lodge, No. 59, International Union of Locomotive Firemen, held in Gladding's Hall, and which is conceded by all to have been a complete success. The hall was very tastefully arranged and decorated. Immediately in front and over the musicians platform, which was enshrouded by the American flag, was a locomotive headlight, on which was frosted the initial monogram of the craft, "I.U.L.F.," executed in a very artistic manner by Mr. F. C. Butler. Directly over the entrance way was the word "Fraternize," done in German letters, color ruby, embellished with a beautiful green wreath; this being illuminated showed out with good effect. I believe credit is due for this to Messrs. Henry Cook and H. T. Pierson. Suspended from the ceiling was a good many beautiful singing canary birds, that helped enliven the most excellent music presided over by Prof. Scott of your town, who opened the Grand March with over fifty couples on the floor. I am not able to particularize as to the dress and toilets of the ladies, but suffice it, that all were well and tastefully attired, and some even gorgeously. Much credit is due Mr. C. Garcia for the manner in which he directed the dance. Supper was served at the Nevada House by mine host Wm. Donaldson, ably assisted by his sister Mrs. Linton, who did all that was possible to appease the appetites of nearly one hundred couples. One noticeable, and very creditable feature, was the straight manner in which all the boys carried themselves. You know we had a temperance lecture the night before by Mr. L. Leland, Grand Lecturer of the I. O. G. T., who established a lodge here. We have a rifle team match now going on, under the captainship of Messrs. J. Paige, P. Gillispy and J. Holbrook. I am off to see them, so an revoir. R.C.F.

The Huffaker Dance.

New Year's night the good people around Huffaker's gave a dance at the school house, and it was a success in every sense of the word. The attendance was much larger than any one expected, but those whole-souled people were equal to the occasion, and the many strangers were made to feel perfectly at home. Though the night was cold they danced so heartily that Jack Frost was powerless to check the fun. Sunrise came too early by considerable, but as it warmed them that 1873 was a day old and the solemn realities of the year had begun to assert their presence, the merry ones separated and the joyous time was at an end.

A Lottery Man Arrested.

And when taken before a San Francisco Judge, was asked what he had to say. "Why, your honor, my prize packages contain only Donnelly's yeast powder." "It seems that it's raised you considerable trouble," remarked the judge. "Yes, but it's no game of chance," answered the prisoner. "Certainly not; it's a dead sure thing. I dismiss the case at once. I have tried it—I mean the yeast powder."

About Calls.

We would not mention one, to the disparagement of others, of those ladies who made callers feel perfectly at home on New Years. We but echo the wish of the gents who conformed to custom when we state that they hope to be alive next year and do it again. The ladies spread forth beautiful repasts, were particularly pleasant and happy, and received in a royal manner.

The International Hotel now boasts of one of those beautiful desks, like unto the one in the Depot Hotel. It is a very handsome piece of furniture, and Elliott feels proud of it. He has also put in place a nice cabinet case, and rich mineral specimens will be thankfully received.

The thermometer ranges in the neighborhood of zero every night. At 7 o'clock yesterday the thermometer registered 3 above zero and at 9 it was only 10 above. Very cold indeed. An Indian says it will snow much this winter. Hope he is not mistaken.

"NOTHING IN IT."

Let all mankind beware the fate Of M. J. Smith who lived at late In Reno town, Nevada State— He's dead. He went out calling New Years day And drank three thousand drinks they say, But now for this he's had to pay— He's dead. The next day he drank some water, Hogan says he hadn't oughter, And it quickly him did slaughter— He's dead. I do not know but all suppose The water in his stomach froze, And thus were ended all his woes— He's dead. He was a friend and neighbor kind, A b-hor man 'twas hard to find, For him my eyes with tears are blind— He's dead. Where he has gone we do not know, Perhaps above, perhaps below, But where he is I fear would go— He's dead.

Fire.

New Year's morning a fire broke out in a small wooden building in the demi-monde quarters. Owing to the manner in which the New Year had been ushered in it was only after great delay that our people could be convinced that there really was a fire, as they believed the alarm was false. Such comes of the practice of allowing the fire bell to be rung for any other purpose than a genuine fire. Finally a sufficient force gathered to get out the engines and hose carts, and at last the flames were subdued, after two buildings had been destroyed. Had there been any wind the entire east side of Virginia street must certainly have been burned.

Cutting Ice.

The mill dam above town has been frozen over for several days, and yesterday Elliott and McMillan ont it to find its thickness. Six and a half inches were found of as clear ice as can be found any where. They will cut it to-day for the trade. Another industry for Reno.

The breaking of a drawhead of the engine delayed the lightning train half an hour last night.

JOE COLEMAN has closed his eating-house. Say's there's no money in it.

SWEET CASTOR OIL.—Chemically prepared so as to remove all offensive taste without impairing any of the virtue of the oil. Adults like it; children cry for it. Manufactured and for sale by Matheson & McRae, City Drug Store.

We will present any lady with a fine Silk Dress who will prove to us that our X. X. X. Bleaching Soap fails to do good washing WITHOUT THE USE OF THE WASHBOARD, when directions are strictly complied with.

KANE & TALLMAN.

Factory near Iron bridge, Reno.

P. R. HAMPTON, News Agent, Dealer and Carrier. Dailies, Weeklies and Magazines—eastern and western. Depot on Virginia street, Reno.
